Objective

Passionate Android App Developer skilled in **Kotlin, Jetpack Compose, and MVVM architecture**, with experience in **REST APIs, Firebase, and databases (MySQL, Room, SQLite)**. Dedicated to building scalable and user-friendly applications while continuously learning and improving. Seeking opportunities to contribute to impactful projects.

SKILLS

- ❖ **Languages:** Java, Kotlin, PHP
- ❖ **Databases:** MySQL, SQLite, Room Database
- ❖ **Technologies & Tools:** Android App Development, Jetpack Compose, MVVM Architecture, Retrofit API, Volley API, Firebase, REST APIs, Gradle

EDUCATION

- ❖ **BCA (Bachelor of Computer Applications)** – SVIET College, Punjab *Pursuing*
- ❖ **XII (BSEB)** - LS College, Muzaffarpur, Bihar *67% | 2022*

PROJECTS

- ❖ **Weather App**
 - Developed an Android weather app using Kotlin, XML and OpenWeatherMap API for real-time weather data and forecasts
 - Implemented features like location-based weather updates, offline support, and smooth UI/UX design.
- ❖ **Bam Sweets - Food Delivery App**
 - Designed and built a **feature-rich food delivery platform** with functionalities such as **user authentication, order tracking, and integrated payment gateway**.
 - **Technologies Used:** Kotlin, Jetpack Compose, Retrofit, Firebase, PHP, MySQL, and Room Database.
 - Used **MySQL** for backend database management and **Room Database (SQLite ORM)** for storing cart data locally.
 - Implemented **customizable payment options**, including **disabling Cash on Delivery (COD)** for specific locations.

HOBBIES

- ❖ Cooking, solving coding challenges, learning new technologies.
